In the Matter of:

THE PROPOSED REVISION OF LOUISVILLE	)	
GAS AND ELECTRIC COMPANY OF ITS	)	CASE NO. 9133
PURCHASED GAS ADJUSTMENT CLAUSE	)	

O R D E R

IT IS ORDERED that Louisville Gas and Electric Company ("LG&E") shall file an original and seven copies of the following information with the Commission within 2 weeks from the date of this Order. If the information requested or a motion for an extension of time is not filed by the stated date, the Commission may dismiss the case without prejudice.

1. What will the actual quarterly filings include? Provide samples of filings for the quarters used in Exhibit B of the application. These filings should include workpapers for the calculation of the Gas Cost Balance Adjustment.

2. Why are four months included in the Gas Supply Cost Component attachments in Exhibit B of the application? If one month is a revised estimate of the last month included in the previous filing, how does it affect the filing?

3. Did LG&E examine the quarterly filing procedure used by Delta Natural Gas Co., and that recently adopted by The Union Light, Heat and Power Co.,? Why did LG&E propose one balance

adjustment rather than an actual adjustment and a balance adjustment? What is the advantage of a running total in the balance adjustment as opposed to showing four segments and tracking back to the over/under recovery for any quarter?

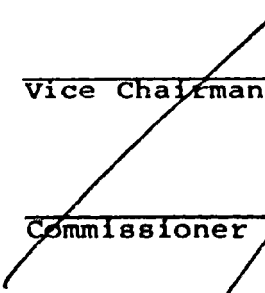

4. Why has LG&E proposed a rate design that shows a certain amount of gas cost in the base rate along with distribution cost? Did LG&E consider showing all gas cost as one separate adjustment to the base rate which would be the amount assigned to distribution cost?

5. Provide sample calculations to show how LG&E determined the projected customer deliveries, storage withdrawals and expected purchases used in Exhibit B of its application.

Done at Frankfort, Kentucky, this 26th day of October, 1984.
